

CI-IC44A

The **CI-IC44A** is an audiophile grade in-ceiling speaker system capable of high output reference caliber sound. Its "fast" dynamic response provides unsurpassed clarity, while its 20 degree down angle gives it the versatility for use as a high quality main LCR, surround or height speaker. Features include an MDF enclosure, fully enclosed rear cavity, aluminum outer frame, designer cloth grille and rigid mounting system. The **CI-IC44A** should be paired with a subwoofer to finish the range.

Sonically, the
CI-IC44A
is a new reference level for compact
high-end ceiling speaker systems.

SPECS DESCRIPTION CI-IC44A
