

FUSION FLAT

Ultra-slim soundbar at only 1.98" deep | Passive Soundbar System

The Fusion Flat incorporates a radical approach to internal air load management and driver construction. Our proprietary 4.5" aluminum convex cone driver exhibits a unique and powerful rare earth neodymium motor system that promotes high acceleration and excursion, with ultra-low distortion. Simply put, where our competition has failed, NextLevel Acoustics shines.

FEATURES INCLUDE:

- Extraordinary acoustical dynamics and clarity
- Proprietary driver and crossover configuration
- Ultra-low profile at 1.98" of depth
- Available as an LCR, Stereo, or Center Channel
- Baltic Birch back panel
- Flush wall pass-through mounting system / UM-1 bracket mounting system
- Various finishes and custom colors
- Custom widths w/ optional IR badge
