

# FUSION S3

## THE FUSION S3 FITS WHERE MOST SOUNDBARS DO NOT

The **Fusion S3** slim passive soundbar by NextLevel Acoustics is less than three inches tall and delivers high-end performance in a compact and artistic package. With three channels, powerful 2.5" drivers, and a textured front surface that minimizes high-frequency reflections, the Fusion S3 is in a class of its own. It is also offered in a variety of custom widths - from the ultra-short (49" displays) through the ultra-large (100" displays) - to fit any screen or décor.

**Let's Get Custom!** - The Fusion S3 may be purchased as either a 2-channel stereo, dedicated center, or full LCR soundbar and comes in an assortment of colors and finishes.

## FEATURES INCLUDE:

- 2.95" of overall height
- Ported design
- Extraordinary acoustical dynamics and clarity
- Proprietary crossover configuration
- Textured front surface minimizes High-Frequency reflections
- High-gloss or Matte black (standard)
- Elite tapered ends
- Baltic Birch back panel
- Light Weight
- Z-clip (wall) or UM-1 mount (to display)
- Custom configurations, widths, IR badge grille notches, finishes and colors available upon request
